Associate Software Engineer

Etah, UttarPradesh 

[akulsharma](#) 

Enthusiastic and highly skilled Associate Software Engineer with a strong foundation in coding and full stack development. Proficient in designing, implementing, and maintaining web applications. Looking to leverage my expertise and drive for excellence to create impactful software solutions that exceed expectations.

EDUCATION

Anand Engineering College, Agra

Bachelor's Degree in CSE
2018 – 2022 7.87 CGPA

Assisi Convent Sr. Sec. School, Etah

Intermediate
2017 – 2018 87.4 %

Assisi Convent School, Etah

High School
2015 – 2016 9.2 CGPA

SKILLS

- C++
- Core Java
- Advance Java
- DSA
- HTML
- CSS
- JavaScript
- Node.js
- Angular
- React.js
- MySQL

CODING PROFILES

- Leetcode  [akulshama](#)
Solved 600+ problems
- Geeks For Geeks  [akulsharma](#)
Solved 350+ problems

ACHIEVEMENTS

- First prize in a web development competition named Design O Web in college fest 2019
- Third prize in coding competition in college fest 2019.

PROFESSIONAL EXPERIENCE

Associate Software Engineer

Nagarro | August 2022 – Present

- Designed and implemented RESTful APIs using Spring Web and Spring Boot, facilitating seamless communication between frontend and backend systems.
- Build scalable and high-performance web applications using Node.js, Express.js, and MySQL, delivering efficient backend solutions.
- Developed dynamic and responsive web applications using Angular framework, delivering modern user experiences with smooth interactions.
- Implemented state management using React hooks and Redux, ensuring efficient data flow and improved application performance.
- Spearheaded the design and implementation of microservices architecture, optimizing scalability and enhancing system efficiency.

PROJECTS

E-Mart Reviewing System

 [Github Link](#)

- E-mart web application with HTML, CSS, JavaScript and Angular in the frontend and Java Spring boot in the backend. The database used is MySQL.
- Customer Portal: Customer can search for a product. See all the reviews about the product and can also provide review for a product.
- Admin Portal: There is only one admin who can login through credentials and see all the reviews of all products. Admin can either approve it or reject it.

Blog post application

 [Github Link](#)

- A blog application with React.js where user can post their blog on the site.
- User can also edit, delete and like blogs.
- Redux is used to send the data from one component to another.
